

Harnessing the Sun's Power

Workshop Seminar
With industry expert John Meadows

Thursday 2nd July 2009, 9am – 1pm (Including light lunch)

The Staffordshire Wildlife Trust
The Wolseley Centre
Wolseley Bridge
Staffordshire, ST17 0WT

A **FREE** workshop seminar entitled 'Harnessing the Power of the Sun' has been organised by the RE:think Energy Project in conjunction with Schott Solar on 2nd July 2009. The workshop will be lead by industry expert John Meadows, MD of Schott Solar's UK sales division and UK solar operations. John will introduce solar technology, covering key topics such as how PV cells harness the suns energy, planning your own project, installation, energy output, connection to the grid and costs involved. With over 50 years experience in the industry Schott Solar are considered one of the worlds leading photovoltaic manufacturers of wafers, cells and modules and can provide a wealth of information on this subject.

This event will be held at the Staffordshire Wildlife Trust HQ which showcases solar thermal collectors and photovoltaic arrays that provide both hot water and electricity for the centre. This event will also include an opportunity to view the centre's installation.

To book onto this event, simply complete the booking form (attached to your email invite) and return it to Sanjeet Bains by email at sanjeet.bains@staffordshire.gov.uk or Fax to 01785 277727. Or alternately telephone 07185 276528 giving your name, business name, contact details and dietary requirements.

Harnessing the Sun's Power

Staffordshire Wildlife Trust
Thursday 2nd July 2009, 9am to 1pm

Time	Item	Speaker
0900	Registration & Refreshments	
0920	Welcome & RE:think Energy	Sanjeet Bains
0935	Harnessing the Sun's Power (part 1)	John Meadows Schott Solar
1035	Refreshment Break & Networking Opportunity	
1100	Tour of Staffordshire Wildlife Trust Solar Installation	Guy Corbett-Marshall Staffordshire Wildlife Trust
1140	Harnessing the Sun's Power (part 2)	John Meadows Schott Solar
1220	RE:think Energy	Sanjeet Bains
1230	Lunch & Networking Opportunity
